FAQ:

Q: What is a natural human hair wig?

A: A natural human hair wig is a hairpiece made of 100% real human hair. It looks and feels like your own hair and can be styled and colored just like your natural hair.

Q: What is the difference between a human hair wig and a synthetic wig?

A: The main difference between a human hair wig and a synthetic wig is the material used to make the wig. Human hair wigs are made of 100% real human hair, while synthetic wigs are made of synthetic fibers. Human hair wigs can be styled and colored just like your own hair, while synthetic wigs are limited in their styling options.

Q: How long do natural human hair wigs last?

A: The lifespan of a natural human hair wig depends on several factors, such as how often you wear it, how you care for it, and the quality of the hair used. Generally speaking, a quality human hair wig can last for several years with proper care and maintenance.

Q: Can I dye or bleach my natural human hair wig?

A: Yes, you can dye or bleach your natural human hair wig. However, it is important to use a professional-grade hair dye that is specifically designed for human hair. It is not recommended to use regular hair dye or bleach on a human hair wig as it can cause damage to the hair.

Q: Can I use heat styling tools on my natural human hair wig?

A: Yes, you can use heat styling tools such as curling irons and straighteners on your natural human hair wig. However, it is important to use a heat protectant spray before styling to protect the hair from heat damage.
